

QUALITY POLICY STATEMENT

Based in the Test Valley, near Romsey Hampshire, we operate throughout the South of England and offer a total construction service from cost planning potential schemes through to the design, build and handover of a range of construction projects.

Reside Construction Ltd is committed to providing reliable service with consistent quality for its customers.

This commitment extends to ensuring that Customer, Statutory and Regulatory requirements, as well as the requirements of ISO 9001:2015 are met at all times.

It is further committed to set, measure and monitor Quality Objectives in order to continuously improve its performance. These goals are communicated to all its employees.

The various processes and activities undertaken are written in the Procedures and Flow Charts.

These documents are readily available to all employees and are kept under review by the Managing Director by means of the Non-conformance control, Auditing and Management Review processes.

These processes maintain the suitability of the existing system and provide a means of implementing improvements on a continual basis.

This policy is itself kept under continuous review.

A handwritten signature in black ink, appearing to be "W. J. P.", written over a horizontal line.
